

# What will you get from a work placement through Light on the Path?

At Light on the Path, we love people and we love making their lives rich. It's our pleasure to design work placement packages that fit your students or graduates and we look after them while they are here. Many even keep in touch with us after they go home.

*"This experience was more than just an internship!!"*  
– Rebecca, Healthcare assistant

## What do we offer?

- A designated contact for you and the student, and a back-up contact in case of emergencies
- Ongoing mentoring as needed
- Work placements of varying lengths to suit your students' needs
- Accommodation with an approved host family, with breakfast and dinner provided
- A travel pass, by bus, train or subway, to best fit the commute
- A week's English language course at the right level for the student (could be longer by arrangement)
- Collection from and return to the airport, transport and settling in to the first day of language course and work placement
- Orientation and half-day tour of the city
- Ongoing liaising with you, the intern, the work placement and the host family to ensure everything is going well
- A debriefing meeting with student and work placement host where we complete the Europass Mobility and sign off the Training Agreement as complete

## Which sectors do we cover?

We can provide placements in a wide range of sectors, from healthcare assistants to automobile mechanics, IT technicians to video production, admin, marketing and management assistant posts. Our work placement hosts are happy to take more of our students, so if we have used them before, it will be relatively quick to confirm a placement. For other areas of work, we should be able to find a placement given a few weeks' notice.

One of our happy students with her work placement hosts

## Types of accommodation

We have found host families particularly cost effective, welcoming and useful for practising English, but if you have other accommodation needs, let us know and we will research options for you.

## Working with you

We know that your priority is to ensure the students have a successful placement that meets their needs, so we keep in touch with you before the placement to update you on what we have organised and during the placement to let you know how the student is getting on. And if you hear anything that needs to be acted on, we will also respond quickly.

*"Thank you very much for your efforts! It really gives me a good feeling to send students to you as I know they are supported actively if any problem occurs."*

– Ev Larsen, Leiter Azubi & Ausbilder Training

We want to have a long-term relationship with you; we want to make your life easy and your job satisfying, so get in touch and we'll see what we can organise for you!
